

6th Edition

Traceability & Authentication Forum

PATH TO A SECURE FUTURE

AUTHENTICATION & TRACEABILITY FOR ALL

SHOW GUIDE

17th-18th March 2025
Hotel Eros Nehru Place, New Delhi

AGENDA

17th March 2025	Time	Details
Inauguration and Foundational Strategies		
Registration & Welcome Tea/Coffee	08:45 – 10:00	Registration and informal networking over tea/coffee.
Session 1	10:00 – 12:00	Inaugural Session - Welcome Note, Lamp Lighting Address by Chief Guest and Guest of Honor Leaders' Forum – Navigating Authentication Challenges, Delivering Innovation Launch of ASPA Report & Presentation
Networking Tea	12:10 – 12:30	
Session 2	12:30 – 13:30	Empowering Consumers: How Government Initiatives Protect Public Safety and Trust
Networking Lunch	13:30 – 14:30	
Session 3	14:30 - 16:10	Presentation by President, ASPA Physical & Digital Technology: The Cornerstones of Authenticity Sponsor Presentatio
Networking Tea	16:10 – 16:30	
Session 4	16:30 - 18:00	Championing Originality: Industry Leaders on Tackling Counterfeits Discussion by Industry Leaders Presentation by Partner Association/ Sponsor Presentation/ASPA Presentation
Networking Cocktail & Dinner	18:00 onward	Networking and informal discussions over dinner.
18th March 2025	Time	Detail
Day 2: Specialized Strategies and Future Vision		
Registration & Tea	09:00 – 09:30	Registration and informal networking
Session 5	09:30 - 11:10	Emerging Innovations in Authentication & Traceability Role of AI, Blockchain and IoT in Smart Packaging and Authentication. Presentation from E-commerce Industry
Networking Tea	11:10 – 11:30	
Session 6	11:30 - 13:30	a) PharmaGuard 2025: Securing the Future of Pharmaceutical supply chain Integrity b) IP Protection & Traceability: Strengthening Market Integrity
Networking Lunch	13:30 – 14:30	
Session 7	14:30 - 16:00	Strengthening Traceability and Supply Chain Integrity Through Standards Presentation by Sponsor Closing remark

SPEAKERS PROFILE

Ajay Panwar

His recent ventures, NaturTrust (into compostable packaging) and Utopia Ditech (into digital solutions), reflect his commitment to sustainability and innovation. A mentor and board member for initiatives like the AIM Smart City Accelerator Program, Ankit collaborates with institutions like Microsoft, Ashoka University, and ISB to drive impactful change. His mission is Creating a Better Tomorrow.

Abhijit Ghosh

Assistant Drugs Controller, Drugs Control Department.
Government of NCT Delhi

Ex Assistant Drugs Controller (Medical Device),
at Central Drugs Control Organization (CDSCO)
Year: 2020-2023

23 years of experience in regulatory and enforcement activities as Drugs Inspector at the State Drugs Control Department of Government of Delhi and Government of West Bengal.

Ex senior research fellow of Council of Scientific and Industrial Research (CSIR) under the Department of Pharmaceutical Technology, Jadavpur University with internationally published research paper published in 'Phytotherapy Research on 'Evaluation of the Anti-bacterial activity of Ventilago Madraspatana Medicinal plant, Isolation of Emodin and Physcion as active Antibacterial agent.

Presently, associated with National Institute of Medical Science (NIMS), Jaipur, as part time Ph.D. scholar working on Biomedical Engineering Division.

Educational Qualification	Year	
B.Pharm	1993	Sambalpur University
Master's in Biomedical Engineering	1999	Jadavpur university

Activities as speaker:

Participated as speaker at 'World Health Innovation Forum (WHIF) 2024' on 13th December 2024 at AMTZ Campus, Visakhapatnam, presentation on Overview and way of implementation of Medical Device Rule in India'.

Participated as speaker at '5th International Clinical Engineering & Health Technology Management Congress' organized by Global Clinical Engineering

Alliance on 10th -13th November 2023 at AMTZ Campus, Visakhapatnam, presentation on Overview and way of implementation of Medical Device Rule in India'.

Participated as speaker at 6th National Bio Entrepreneurship Boot Camp from 11th to 14th April 2023, under the BIRAC Regional Entrepreneurship Centre - BREC at C-CAMP. Presentation on 'Overview on Medical Device Regulatory Landscape in India and steady progress towards Digital Health '.

Participated as speaker at Global Tech Summit hosted by Destiny Vishakhapatnam on February 16-17th, 2023. Presentation on 'Overview on Medical Device Regulatory Landscape in India and steady progress towards Digital Health '.

Participated as speaker at 72nd International Pharmaceutical Congress on 'Access to Quality & Affordable Medical Product' at Nagpur held on January 20-22, 2023. Presentation on 'Overview on Medical Device Regulatory Landscape in India and steady progress towards Digital Health '.

Participated as speaker at National Conference of IPGA on 'Recent Development in Pharmaceuticals Technology, Medical Device and Cosmetics' held on 19th November 2022, presentation on 'Overview and way of implementation of Medical Device Rule in India'

Participated as speaker at the Global Digital Health Summit on 28th to 29th October 2022 organized by Health Parliament at Vigyan Bhawan, Delhi, presentation on 'Overview and way of implementation of Medical Device Rule in India'.

Participated as speaker at 'Three days training program for preparedness for transition to licensing under Medical Devices Rules' for Medical Device Officers of Sate and CDSCO held on 26th to 28th September, 2022, organized by CDSCO & NIHFW, Delhi. Presentation on 'Medical Device Cybersecurity'.

Participated as Cohort member in the United Kingdom Learning Tour from 14th to 19th March, 2022 for the program 'Building bridges on regulatory approaches to AI/ML enabled health-tech 'organized by British High Commission under UK-India Tech Partners.

Ashish Anand

Technical Director

Linksmart Technologies

Ashish Anand is Technical Director at Linksmart Technologies. He looks after IP portfolio, IP licensing and strategic alignment in multiple International jurisdictions.

Apart from Non-clonable Digital Identity of Things, physical & digital security have been areas of interest. He commands multiple patents in these domains.

Recently he has been instrumental in devising Print only solution for Non-clonable that redefines standard of automation grade micro printing technology along-with optimizing ground investigation. He believes standards for non-clonable impressions should be redefined such that vendors should be able to underwrite performance liability against cloning on every impression piece-by-piece. Accordingly with automation grade micro-print technology, LINKSMART is celebrating the journey of more than 6 billion printed Non-clonable impression in a short time.

Atul Govil

Chief Transformation Officer & Head (SAP & IT)

Corporate India Glycols

Atul Govil, Chief Transformation Officer & Head of Technology for India Glycols Limited – a public listed company having annual turnover of more than INR 8000 Cr. He is a Graduate engineer with dual degree in Marketing & HR. Has run multiple Tech enabled Business Transformation projects to increase Profitability, Throughput & Productivity with world leading consulting companies in manufacturing & allied

supply chain domain

Chander S Jeena

International Optical Technologies Association (IOTA)

Chander S. Jeena is the Regional Director at Reconnaissance International, where he supports the organisation's activities in publishing, event management, consulting, and specialised services in authentication, brand protection, currency, personal identification, secure documents, holography, digital security, and optical security. He is also the Editor of Holography & Optical Technology News and the Co-

editor of Authentication & Brand News.

Chander's experience with anti-counterfeiting began with the Authentication Solution Providers' Association (ASPA), where he served for 17 years from 2006 to 2023. During this period, he played a crucial role in raising awareness and developing anti-counterfeiting ecosystems in India.

He holds a bachelor's degree in industrial relations and a master's in mass communication and public relations.

Diwaker Bharadwaj

President (Automation/Serialization, Packaging & Brand Protection)

Polycab India Limited

A visionary technologist with 26 years of expertise in Automation/Serialization, Software development, Packaging & Brand Protection. Drives business transformations with AI, ML, Blockchain, AR/VR/MR Haptics, and Digital manufacturing. Skills: Packaging Engineering, Product Serialization, Track & Trace, IOT/IOT, Robotics, Automation, Software Programming, Analytics, Brand Protection Strategies. Digital

Manufacturing & Smart Factories, Captivating solutions optimize operations to Industry 4.0 standards. Achievements: Crafted efficient web and mobile apps, ensuring peak efficiency. Expert in intellectual property rights (IPR) and brand protection. Diwaker is a Qualified Engineer in, 1.) B. Tech in Printing & Packaging from M.I.T- Manipal. 2.) Post Graduation in Communication Technology Management from AIMA- APTC. 3.) Advance Level Post Graduation in Digital Manufacturing & Smart Factories from Indian Institute of Science Bangalore. 4.) Post Graduation in Digital Transformation from Purdue University. 5.) Presently Pursuing Advanced Post Graduation In Software Engineering from Indian Institute of Technology – Madras. Current Role: President at Polycab India Limited, leading Automation/Serialization, Packaging & Brand Protection. Drives cutting-edge advancements for market dominance. I have been invited as a speaker and chairperson in multiple conferences, summits and panels by inventicon, National Anti-counterfeit forum, ASPA, GS1, Smart manufacturing expo, National packaging summit, Digital expo by Microsoft, AAIS (Alliance against counterfeit spirits), Traceability & Authentication forum etc.

Harveer Sahni

Chairman
Weldon Celloplast Ltd.

Harveer Sahni a B.Sc. in Chemistry is the Chairman of Weldon Celloplast Limited New Delhi

- He has spent 46 years in the label industry. Entered the label industry in 1978 by starting siliconizing operations. Earlier he worked for family's stationary business started by his father in 1939.
- Those initial days tin catalyst post curing silicone chemistry was in use; he led the change in India by first switching over to solvented platinum catalyst system and then to the solventless coatings which are in use till now.
- Due to non-availability of good quality glassine in India those days he introduced release liners on polycoated and barrier coated papers to his customers using ordinary woodfree papers.
- Started labelstock manufacturing in 1997 and soon became the leading supplier of label materials in India and globally supplying to almost 30 countries.
- He was also the first Indian labelstock manufacturer to install a Nordson hotmelt adhesive coating/laminating line.
- Developed security labels, transfer tapes and double faced labelstock with single liners almost 20 years ago.
- His company was the first Indian labelstock manufacturer ever to exhibit at Labelexpo Europe in Brussels
- In times of recession and intense competition reduced dependence on manufacturing and joined internationally renowned suppliers of label presses, tooling, equipment and consumables as their exclusive agent expanding the range of offerings to his established customer base.

By 2003, started sharing his experiences and knowledge by writing for global magazines and making presentations. His presentation on the market size of labels in India was a part of the Cham Paper Mills pressure sensitive symposium at St. Moritz in Switzerland in 2003.

- He was instrumental in encouraging and supporting entry of Tarsus UK into India and helped in making success of the international label summit in Mumbai.

- In 2006 for his presentation at the Label summit he chronicled the history of label in India starting from the very first pressure sensitive label produced in India
- He was instrumental bringing Tarsus UK and the owners of India Label show together. The show was finally acquired by Tarsus and renamed Labelexpo India. Inform Markets eventually acquired tarsus.
- In 2010 in an effort to contribute more from his experiences and knowledge as also expand his deliverance worldwide he started a blog titled "Self-adhesive Labels Industry in India and the world" <http://harveersahni.blogspot.com>
- He has been the only Indian ever to have been a member of the Finat committees.
- He has been the Judge for world label awards multiple times.
- He is on the board of Directors of LMAI (Label Manufacturers Association of India)
- He was the first recipient of the "Lifetime award for support to the India Label Industry" given by LMAI in 2017
- After updating the history of label in India many times thereafter, it is now available on his blog in series of 5 articles.
- He has been curating and helping in organizing networking and knowledge events for LMAI becoming the bridge between the print buyers, Label printers and suppliers.
- His blog is read globally and as of March 2025 it has crossed 6,02,850 pageviews from a very focused global audience consisting of printers, suppliers and brand owners. With 252 articles covering success stories, history, market information and events it is viewed in the following countries; United States, India, Germany, United Kingdom, Canada, France, Brazil, Netherlands, Singapore, Switzerland, Russia, Australia, Spain, South Korea, Kuwait, Qatar, Japan, Pakistan, Sweden and Others. He has also launched a website www.labelsandpackangworld.com complementing his blog. Together both platforms have reached 745,000 page views and are likely to reach a million pageviews this year.
- In September 2022 at Chicago USA, he was conferred the world's highest award in label industry, The R Stanton Avery Global Achievement Award. He is the only Indian recipient of this award.
- In November 2024 he launched his 320-page Coffee Table Book titled "Untold Stories of Indian Label Industry" The book launch was supported by industry leaders that include Avery Dennison, HP, LMAI and Pragati Pack.
- He has in recent years stepped back from active involvement in business and spends time giving back to the industry through his work as an author.

Dr Jayashree Gupta

President, Consumers India &
Chairperson, Human Rights Group

Raising important consumer/human rights issues such as 'consumer justice', 'access to affordable medicines', 'unethical medical practices', 'misleading advertisements', 'junk food', 'fake, spurious and counterfeit', 'save the girl child' etc with a view to safeguard the interests of the masses.

Catalysing the energy of youth through Internship Programme and All-India Painting/Slogan/On-line Contests etc has been a major milestone achieved by us. We have been successful in inspiring youth to undertake research work on important issues affecting the lives of a large number of people. Over 200 studies have been completed under our research internship programme. Many of these studies have contributed to our advocacy and awareness campaigns. All India painting contest on 'Save Environment, Live Healthy', Memezaar (Meme making Contest) on 'Fast Food Illusions', Poster Contests on 'Say NO to Cosmetics', 'BATTLE OF WORDS' Debate are some examples of diverse activities being regularly undertaken for catalysing youth.

We have been successful in establishing an active interface with United Nations. The ball was set rolling with the prize for the 'Best Opinion' awarded to me on 2nd July, 2013 at the High-level segment of ECOSOC -2013-14 of United Nations, held at Geneva. Written Statements submitted for ECOSOC High Level Segments in 2013, 2014, 2015, 2021, 2022 and 2023 have also been published by the United

Nations. Another major success was inclusion of most of our comments relating to 'access to affordable drugs' in '2030 Agenda for Sustainable Development' adopted by the General Assembly of the United Nations on 25 September 2015.

Maintaining an active blog <https://drjayashreegupta.blogspot.com/> and other social media platforms for dissemination of valuable information.

Retired in May 2010 as Additional Secretary to Govt of India & Chairperson-cum-Managing Director (CMD), Indian Drugs & Pharmaceuticals Limited (IDPL) after serving Govt of India for 37 long years. Infused new life into chronically sick IDPL (a CPSE) by bringing about 1500% growth during less than 4 years.

Promoted Jago Grahak Jago Campaign in the country, while posted as Joint Secretary in the Deptt of Consumer Affairs (2003-06), in addition to number of other initiatives like setting up of National Consumer Helpline, Consumer Clubs, involvement of educational institutions etc.

PUBLICATIONS

- 'Hey Consumer! Know Your Consumer Rights!!' -A pictorial E- book (brought out in 2022). It can be seen on <https://drjayashreegupta.blogspot.com/2022/08/hey-consumer-know-your-consumer-rights.html>
- My Book of Human Rights (Published in 2007)

Dr K Madan Gopal

Advisor –NHSRC,

Ministry of Health & Family Welfare, Government of India

Dr K Madan Gopal is a seasoned public health professional with over 30 years of transformative experience in health sector reforms and strengthening health systems across India. An MBBS and MD (Preventive and Social Medicine), he has played a pivotal role in shaping policies and programs that have enhanced healthcare delivery, particularly for underserved populations.

Dr. Gopal's extensive career includes spearheading health sector reforms and health system strengthening in Chhattisgarh (2002–2011), where he led critical initiatives for institutional capacity building, workforce training, and strengthening primary and secondary healthcare delivery. His efforts laid the foundation for innovative programs that improved public health governance and outcomes at the state level.

As Senior Consultant (Health) at NITI Aayog, Dr Gopal played a pivotal role in creating and advancing the State Health Index, spearheading its development for five editions to drive competitive federalism and improve health system performance across states.

He also successfully implemented the Rashtriya Swasthya Bima Yojana (RSBY), one of the world's largest health insurance schemes, earning him the National Award for Outstanding Achievement, and pioneered the CSR-driven Employer-Led Model for healthcare initiatives targeting vulnerable populations.

In addition, Dr. Gopal contributed significantly to flagship initiatives, including the Aspirational District Program (ADP), district hospital rankings, National

Digital Health Mission (NDHM), and Ayushman Bharat PMJAY, while advancing policies for medical devices, senior care, and urban health strategies. He has been instrumental in driving medical education reforms, including the rollout of DNB programs and expanding medical seats to strengthen specialist availability.

Currently serving as Advisor - Public Health Administration at NHSRC, Ministry of Health and Family Welfare, Dr Gopal leads state-level health governance reforms, capacity building, and evidence-based policymaking. Known for his humility, collaborative leadership, and strategic insight, he remains a key architect of India's evolving healthcare landscape.

Kunal Kothari

Solution expert

Tracesci Global

Kunal Kothari is a Solution expert with over 18 yrs of experience, specialize in developing advanced traceability and brand protection solutions that leverage cutting-edge technologies using blockchain, AI, and data analytics to ensure product authenticity and supply chain transparency. He has a proven track record of working with diverse industries, from luxury goods to pharmaceuticals, and delivering scalable, secure, and efficient systems globally that streamline operations and protect brand value. His startup Tracesci Global is providing traceability solution from small cap to large scale brands.”

Lalit Ambastha

Founder & IP Attorney
Patentwire

Current Positions:

- Founder, Patentwire | IPR Attorneys [www.patentwire.co.in] since 2008
- Co-Founder, IPBazaar Technology Consultants Pvt. Ltd. [www.ipbazaar.com] since 2015
- Co-Founder, InkPat, a prototyping division of Patentwire [www.inkpat.co.in] since 2016
- Partner, Newtons Law LLP [www.newtonslaw.in] since 2018
- Founding Member, Reinforce Intellectual Property Association [www.ripaonline.com] since 2012

Introduction

Mr. Lalit Ambastha is an IP Attorney with more than 19 years of experience in the field of Intellectual Property. Lalit is empaneled as speaker and faculty with Ministry of MSME and with Ministry of Skill Development and Entrepreneurship, Govt. of India, for IP Awareness Programs. Lalit is ranked as top 40 IP Professionals in India by IAM 1000.

Lalit has rich experience in IP Prosecution, Licensing, Valuation, and Technology Transfer. He has been dealing with patents and technologies across all major fields of invention for Indian and overseas clients. Lalit is also Co-Founder of IPBazaar, a Technology Transfer company, InkPat, a patent illustration wing and RIPA, a not to profit organization in the domain of IPR.

Manoj Kochar

President
ASPA

Manoj Kochar is a graduate in Commerce stream from St Xavier's College, Kolkata, he is among those who led the introduction of hologram technology in India and is the Director of Holoflex Limited, a Kolkata based company which he co-founded in 1991. Holoflex is a leading provider of authentication solutions in India and the wider international market, developing and deploying customized anti-counterfeiting and brand protection solutions for more than 33 years.

He is the first Asian to serve as the Chairman of the International Hologram Manufacturers Association (IHMA), a London based association that represents the global hologram industry. He has a background in both holography and authentication – he's currently the President of the Authentication Solution Providers Association (ASPA), a New Delhi based association of authentication solution providers, which is a widely respected and perhaps the most active industry association in the global authentication industry. He is also a current IHMA Board member and also serving on the Governing Body of Indian Institute of Packaging. Manoj has participated as a speaker and session Chair at several national and international conferences.

His hobbies include Golf and photography.

Nakul Pasricha

Managing Director – PharmaSecure and Governing Body Member
PharmaSecure
ASPA

He is MD and CEO of PharmaSecure, a global leader in product authentication and supply chain traceability. For over 15 years, Mr. Pasricha has been a passionate advocate of implementing effective, scalable solutions to empower consumers against the menace of counterfeits while securing supply chains. He is also a governing body member and former President of the Authentication Solution Providers' Association, composed of the leading authentication and traceability solution providers in India and beyond. Previously, Mr. Pasricha held various technology leadership roles in financial services companies in USA and India.

He holds a master's degree in computer science from the University of Maryland, College Park, USA, and a Bachelor's degree in Mathematics and Computer Science from Gettysburg College, USA.

Neeraj Singh

Chief Business Officer
Cartel Bros

Success in any business is built on a foundation of vision, leadership, and unwavering commitment. At The Glenwalk, one name stands tall in embodying these qualities—Neeraj Singh, the Chief Business Officer. A seasoned management professional with over 17 years of expertise, Neeraj Singh has been instrumental in shaping and propelling the company towards new heights. His vast experience, keen business acumen, and ability to lead with precision make him an irreplaceable asset to the brand.

A Visionary Leader with Multi-Dimensional Expertise

Neeraj Singh's professional journey is a testament to his remarkable versatility and strategic foresight. With an extensive background in P&L operations, Ad Tech, Alco-Bev, B2B Sales, SMB Sales, Key Account Management, Functional Setup, General Management, and Trade Marketing, he brings a wealth of knowledge and expertise to the table. His strategic mindset allows him to oversee multiple facets of the business while ensuring each department aligns with the company's overall vision.

His academic credentials reflect his passion for excellence and learning. He holds a degree in Engineering – Electronics and Telecommunications from Canterbury Christ Church University, UK, and a PGDM in General Management from IIM Jammu. This robust educational foundation has provided him with an analytical

approach to problem-solving and a structured methodology in decision-making.

The Backbone of The Glenwalk

As the Chief Business Officer, Neeraj Singh's role is all-encompassing. He doesn't just oversee operations—he leads, innovates, and inspires. His hands-on approach ensures that every department functions cohesively, driving the company towards its long-term objectives. Whether it's business strategy, sales and marketing, financial planning, or trade relations, he has a firm grip on all aspects, ensuring excellence at every level.

At the heart of The Glenwalk's success is its ability to create a brand that resonates with consumers while maintaining a strong business backbone. Neeraj Singh's expertise in business planning, negotiation, retail, and team management plays a crucial role in making this happen. His exceptional leadership ensures that every decision taken aligns with the company's growth trajectory.

A Proven Track Record in Excellence

Neeraj Singh's professional journey has seen him contribute to some of the biggest global organizations, leaving behind a legacy of success. His ability to turn ideas into profitable ventures, set up functional frameworks, and drive revenue growth has been recognized across industries. His sharp business instincts and structured management style have been instrumental in ensuring sustainable growth and innovation within The Glenwalk.

His proficiency in key account management and profit center management gives him an edge when it comes to building lasting business relationships. His expertise in negotiations ensures that the company secures strategic partnerships, favorable deals, and market expansion opportunities, all while maintaining the brand's premium value.

A Strong Force Behind the Brand

In the dynamic and highly competitive Alco-Bev industry, having a leader like Neeraj Singh at the helm is a significant advantage. His ability to foresee market trends, adapt strategies, and execute visionary plans has solidified The Glenwalk's position as a brand of distinction. His passion for trade marketing ensures that The Glenwalk not only competes in the market but sets new benchmarks for excellence.

His leadership extends beyond business strategies—he fosters an environment of growth, collaboration, and innovation. His ability to inspire and guide teams ensures that the organization is always moving forward with a clear sense of purpose. He is not just a decision-maker; he is a mentor, strategist, and visionary—someone who ensures that every individual in the company aligns with the larger goal of making The Glenwalk an industry leader.

A Shared Vision with Cartel

Neeraj Singh's association with Cartel Bros Private Limited reflects his deep understanding of the liquor industry and his passion for crafting experiences that go beyond just products. Cartel's ethos—bringing the best of the best without compromise—resonates with Neeraj's approach to business. His commitment to quality, innovation, and luxury ensures that every endeavor he undertakes is driven by a relentless pursuit of excellence.

With Cartel, Neeraj Singh has been a driving force in curating high-end experiences, understanding consumer preferences, and building a strong business foundation. His expertise in both luxury and mass-market segments allows him to craft strategies that cater to diverse audiences while maintaining a strong brand presence.

An Architect of Growth and Innovation

One of Neeraj Singh's most defining qualities is his ability to strike the perfect balance between innovation and operational efficiency. He doesn't just follow industry trends—he sets them. His ability to blend analytical precision with creative business strategies has been a game-changer for The Glenwalk.

His success is not just measured by numbers, revenue, or market expansion, but by the culture of excellence and ambition he has instilled in the company. Under his leadership, The Glenwalk is not just a business—it is a movement that celebrates craftsmanship, quality, and innovation.

Conclusion

Neeraj Singh is more than just the Chief Business Officer of Cartel Bros Private Limited—he is the pillar that upholds its success. His ability to lead, innovate, and execute with precision has been instrumental in making the company what it is today. With his strategic foresight, strong leadership, and commitment to excellence, The Glenwalk is set to achieve even greater milestones in the years to come.

As a visionary, strategist, and leader, Neeraj Singh's contribution is invaluable, and his legacy is one of excellence, resilience, and innovation. His journey is an inspiration, not just for the company but for everyone who aspires to make a mark in the industry.

Nitin Gupta

CEO & Co-founder

Attero

Nitin Gupta is the CEO and Co-founder of Attero, India's largest e-waste recycling, and the world's most advanced Li-ion battery recycling company. He is regarded as a visionary who has played a key role in bringing cleantech to India. His global market understanding makes him an undisputed leader in the space.

Nitin is an alumnus of the Indian Institute of Technology (IIT), Delhi, with a strong foundation in Engineering. He further went on to the prestigious NYU (Stern Business School), and London Business School to study business & marketing.

Nitin has held various leadership positions at Lotus Interworks in the USA and has extensive experience in the world of technology start-ups. Following the mantra of 'it's not waste until it's wasted' and with a strong desire to make a notable change in the cleantech space, Nitin co-founded Attero in 2008, the only company in the world to get carbon credits for recycling e-waste and Li-ion waste.

With a capacity of over 175,000 MT for e-waste recycling and 15000 MT for Li-ion battery recycling, Attero has been granted 46 patents and has applied for more

than 200. Nitin has been the invigorating force behind the growth and expansion of the company.

Under his leadership, Attero in the last 16 years has raised a total of \$30 million in funding over four rounds from institutional backers such as Draper Fisher Jurvetson, Granite Hill India Opportunity Ventures, Kalaari Capital, and International Finance Corporation, which is the private investment arm of the World Bank. As a technology enthusiast, he also introduced disruptive technologies in India which were recognized by the National Aeronautics and Space Administration (NASA) and UNFCCC.

Nitin has been working closely with premier institutions like Niti Aayog to establish a strong foundation for India's e-waste and Li-ion recycling industry. Attero has also received appreciation from the Hon'ble Prime Minister, Shri Narendra Modi, during the 97th episode of 'Mann ki Baat'. The company has recently ventured into the D2C space with the launch of Selsmart – an integrated e-waste Consumer Take-Back platform.

Nitin's responsibilities revolve around envisioning organizational goals and creating plans & strategies that will help the company achieve the set goals. Nitin follows a collaborative and entrepreneurial approach to business and the workplace, which is instrumental in the growth of the brand. He intends to establish Attero as the largest urban mining company in the world.

Pankaj Kumar Patodi

Head of Supply Chain
Godfrey Phillips India Ltd

An IT Savvy Professional, Pankaj is a chartered accountant with a degree in law. With more than 35 years of experience.

He was recently conferred upon the Lifetime achievement in FMCG Supply Chain by Alden, SAP, and Wipro and under his leadership his team has achieved all targets of working capital reduction, optimisation of Inventory and significant cost control in logistics.

Under his able leadership, Godfrey Phillips was ranked in Top 50 Supply Chain Company in North India in 2025.

He believes that talent can win the game, but a team can win the championship.

Prashant Kumar Gupta

Vice President and Chief Business officer
Shriram Veritech

Prashant is a highly dynamic and experienced professional with an impressive track record spanning over 30 years. An IIM Calcutta alumnus, he specializes in Strategy Planning, Business Development, Distribution Management, and Product Promotion. Known for his keen planning abilities, he has a proven knack for developing strategies that drive business growth, optimize distribution networks, and effectively promote products to achieve outstanding results. As a proactive leader, he excels in strategic planning, executing market plans, managing accounts, and leading pre-sales efforts. Moreover, Prashant possesses exceptional skills in staffing and targeted marketing, further enhancing his capabilities in delivering exceptional business outcomes.

R Saha

Senior Adviser

Confederation of Indian Industry

R Saha is a B Tech from IIT Kanpur and master degree holder from Cranfield University England, He is presently Senior Adviser of Confederation of Indian Industry advising on IPR and technology after serving the Government of India for 35 years in scientific and engineering research, policy making, and managing national R&D programs. He retired as Scientist G and Adviser from the Department of Science and Technology, Government of India. He has wide experience in technology evaluation and assessment, intellectual property rights management including international negotiations, regulatory processes, R&D policies, and project implementation. He was the pioneer in creating IPR awareness in the country in 1995 and organized hundreds of workshops across the country and outside too. He was the one to bring the US

patent on turmeric to the notice of public and the nation. He conceived and started a program for women scientists to train them in IPR matters for one year for utilizing their talents in a critical scientific area. He has been with CII for the last 12 years. While at CII, he has developed a 26-parameter matrix for evaluating IPR management systems of industries, conducted several training programs on IPR valuation and licensing, IPR laws and emerging areas; and policy making.

He was appointed consultant by the United Nations, first time to prepare a study on evaluation technologies for persons with disabilities in the ESCAP region (Asia and Pacific region) and second time to conduct a National Study on IPR and MSME in the Indian context in September 2012 on behalf of the World Intellectual Property Organization (WIPO).

He also served as the MHRD Chair Professor in IPR at the Tezpur University, although for a short time. He continues to advise government departments, agencies, and universities on IPR. He has lectured in many foreign countries on IPR related matters.

Dr. R.G. Agarwal

Chairman Emeritus

Dhanuka Agritech Limited

A visionary leader, Dr. R.G. Agarwal, has been an instrumental force in shaping the landscape of India's agriculture and agrochemical sectors for over five decades. With an unwavering commitment to advancing sustainable agricultural practices, he has not only led the Dhanuka Group to great heights but also contributed profoundly to the welfare of farmers and the nation at large. His stewardship has driven innovation in crop protection, spray technology, pharmaceuticals, and cutting-edge advancements such as IoT, drones, and precision agriculture.

Dr. Agarwal's dedication extends beyond business, as evidenced by his leadership in promoting sustainable agriculture through the Dhanuka Kheti Ki Nai Takneek initiative and pioneering public-private partnerships to bolster agricultural extension services. Notably, he championed the DAESI program in collaboration with agricultural universities, empowering Agri-input dealers with critical crop protection knowledge.

In addition to his remarkable business achievements, Dr. Agarwal has been a passionate advocate for environmental conservation. He has driven impactful water management and tree plantation campaigns for many years. In 2005, he launched a water conservation initiative and took along Shri Amitabh Bachchan, which culminated in the construction of six check dams in Rajasthan, benefiting local communities giving the slogan, "Khet ka paani khet me gaon ka paani gaon me". Every year, Dr. Agarwal continues to spearhead a tree plantation drive on World Environment Day, reflecting his enduring commitment to safeguarding the environment for future generations.

For his distinguished service and contributions, Dr. R.G. Agarwal is the recipient of numerous prestigious awards, including an Honorary Doctorate from Amity University, the Forbes Award for one of the "200 Best Under a Billion Companies" in Asia Pacific, and now, the Global Sustainability Award, in recognition of his tireless efforts toward building a sustainable and prosperous future.

Sandip Hazra

Director
PWC India

I am Sandip who believes that Ecommerce has the potential to leverage life and economy of the world. Ecommerce is not only about the platform or its peripherals but its about the limbic system of our brain. As most of our purchase decisions are impulsive, a true Ecommerce Evangelist will never focus on the transactional piece but the bigger WHY of the implementation. To me a true Ecommerce implementation is a delicate balance between art and science. But as the subject is huge, I am trying to learn on a regular basis.

As you must have understood, Ecommerce is what I do. I specialize in the understanding, growth and implementation of Experience driven Ecommerce websites/App with business-ROI-driven approach and have been doing the same for multiple industries (Retail, Electronics, Agriculture, Pharma, Tyre, Education etc.).

Professionally, I lead the Experience & Ecommerce proposition in Application Technology, PwC India. We specialize in Business-driven Ecommerce implementation using Adobe Commerce Cloud (Magento), OpenCart, PHP- Laravel and open-source technologies. We also develop Experience platforms using Adobe Experience Manager. My team is specialized in B2B2C, Marketplace, Experience, Analytics and Campaign implementation (Strategy, Technology Roadmap, E2E implementation, UI/ UX, Governance, Testing, Migration).

As a fan of LinkedIn, I want to leverage the platform by sharing my learnings as well as grabbing all possible opportunities to learn using this platform. Join me in this journey of a self-confessed Ecommerce geek!!!

Prof (Dr.) Sanjay Rajpal

Country Manager
Ypsomed India Pvt.Ltd

- Sanjay Rajpal is Honourable Professor at department of School of Paramedics and Allied Health Sciences, Centurion University of Technology and Management.
- Sanjay Rajpal is the Country Manager of Ypsomed India Pvt Ltd, looking after India, Sri Lanka and Bangladesh and Nepal.
- Sanjay is Doctorate in Public Health Management.
- Sanjay Rajpal is a certified Life Coach from International Coaching federation
- Sanjay has an extensive two and half decade's experience in health care industry. Additionally, Sanjay mentors many new comers in the field Diabetes education and young professionals.
- Sanjay Graduated from University of Delhi and did post Graduate Diploma in Marketing and sales Management form YMCA and subsequently he did his Business Management from Asian Institute of Management Philippines

Saurabh Agarwal

Vice President & General Manager,
Materials Group, South Asia Avery Dennison

Saurabh Agarwal is Vice President & General Manager, Materials Group, South Asia at Avery Dennison. Ms Shagun Walia

+91 9665049007

shagun.walia@ap.averydennison.com

www.averydennison.com

Avery Dennison India Pvt. Ltd.

Avery Dennison began with an innovation that launched an industry. In 1935, a struggling clerk named Stan Avery conceived a smarter way for stores to price their products. Combining used machine parts with a saber saw—and financing it all with a hundred-dollar loan—he created and patented the first self-adhesive, die-cut labeling machine. With Stan Avery's invention, the pressure-sensitive label industry was born. Jekson Vision Pvt Ltd

We specialize in providing cutting-edge vision inspection (Blister inspection, Tablet inspection, Barcode & OCR Readers, Pin Hole detection and Vial Inspection) along with traceability (serialization & aggregation) solutions tailored for various industry that empower industries to achieve the highest levels of quality control and productivity.

With our expertise in machine vision, artificial intelligence, and automation, we deliver customized solutions that optimize manufacturing processes and ensure flawless product integrity.

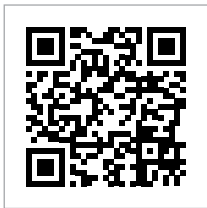

Link smart Technologies Pvt Ltd

LINKSmart is celebrating its journey of 6 billion plus non clonable impressions. Among its active IP portfolio in multiple international jurisdictions, non clonable printing needs special mention that is empowering supply-chain with new level of credible traceability for labeling/printing/packaging. Currently industries struggle with stop-gaps all around. Multiple attempts have been made in different part of world to achieve deployable non clonable printing technologies but those have not been very successful. Now the story is changing. Our unique non clonable printing offers fastest scanning along-with capability to underwrite performance liability.

Performance liability is a unique proposition - it commits hard engineering guarantee against duplication in public domain for every impression piece-by-piece. Paradigm of print anywhere with standard print-lines without any additional setup is enabling new opportunity in underserved market. Converters can offer value-added offerings and customers are empowered to save significant hidden legal cost on ground investigation. Even in-house prints by end-of-line printers can be transformed to non clonable without new capex and thus enabling transformation of serialization to non clonable serialization. Our offerings are based on four foundational pillars and those being "security with performance liability", "sustainability", "usability" & "cost-effectiveness"

Shree Lamipack Pvt. Ltd.

For 32 years, Shree Lamipack has been a trusted leader in labeling and packaging. We manufacture label stock, self-adhesive labels, holograms, thermal transfer ribbons, linerless direct thermal paper, self-adhesive tapes, and premium packaging. With advanced technology, we now produce RFID labels for logistics, garments, and automobiles. Our expertise extends to high-security holograms and specialty labels with security inks, cold foil, QR codes, and track-and-trace systems. Dedicated to innovation and quality, we provide tailored solutions to enhance product security and brand protection, meeting the evolving needs of our clients with cutting-edge technology and excellence in manufacturing.

Tracesci Global Pvt Ltd

Tracesci Global Pvt. Ltd. is an emerging technology and IT services company specializing in data management, digital transformation, and software solutions. Based in India, the company serves a wide range of industries, including finance, healthcare, education, and government, offering innovative services to streamline business processes and enhance operational efficiency. Tracesci Global provides solutions such as data analytics, cloud services, cybersecurity, and enterprise resource planning (ERP), aimed at helping organizations optimize their operations and achieve sustainable growth.

The company focuses on leveraging cutting-edge technologies like artificial intelligence, machine learning, and big data to deliver tailored solutions that meet the unique needs of its clients. With a customer-centric approach, Tracesci Global is committed to delivering high-quality, scalable, and secure solutions that drive business success. The company is dedicated to fostering long-term partnerships, ensuring the success and growth of its clients in an increasingly digital world.

World-class Brand Protection, Packaging and Labelling, & Digital Solutions

For Enterprise and Consumer Engagement Needs

ANTI-COUNTERFEITING SOLUTIONS

PACKAGING & LABELLING SOLUTIONS

DIGITAL SOLUTIONS

Our Solutions

Anti-counterfeiting & Anti-tampering Solutions

Veritech introduces revolutionary Nano-Optics OVD Technology for the first time in India. Our state-of-the-art manufacturing facility with ultra-advance technologies like 4PICO from Netherlands ensures stunning visual effects and unparalleled security features.

We provide customized anti-counterfeiting solutions to effectively safeguard brands.

Packaging and Labelling Solutions

We offer advanced labelling and packaging solutions, seamlessly integrated with anti-counterfeiting technologies. Utilizing world-class flexo and digital printing, we deliver flawless results every time, while our auto inspection systems ensure impeccable print quality.

Digital Solutions

Under the Veritech+ umbrella, we offer tailored digital solutions on a turnkey basis, addressing enterprise and consumer engagement needs from origin to consumption.

About Us

Veritech is a globally renowned leader that has been empowering brands for the last 30+ years. Veritech's lineage can be traced back to the DCM Shriram Group - one of India's largest and most respected business conglomerates. Veritech offers a full range of advanced solutions to combat counterfeiting & pilferage, optimize labelling and packaging, while strengthening enterprise and consumer engagement through digital solutions.
